Agenda for Area Records Officers Meeting, Thursday, 11 June 1964  
Room 1E-78, Headquarters

1. Good morning, ladies and gentlemen. Welcome to our second meeting in 1964.
2. I am pleased to see such a fine attendance today. It is particularly pleasing to see new faces - we have several new records officers:

- Office of Budget, Planning and Manpower  
Office of Communications  
- Office of Central Reference  
FBID

STAT

3. Before proceeding with the principal topic of our meeting I have a few brief announcements:

a. Availability of New Records Center Box - New "tuck" in bottom does not require tape or staples for reinforcement. Place orders with BBO's.

b. IRAC- 19 June 1964 - 10:30. Read Announcement.  
Inquire about transportation

STAT

c. Fiscal Year Report.

d. *Form Management Workshop*

4. During the past year at these meetings we have learned about records management programs at State from Don Simon; AID from Jack Shurman; and Joe Pomerence from ARMY.

✓ Today we shift to GSA - the Agency that has Government-wide responsibility for all Federal records management programs--to hear about Office equipment programs.

Every records officer has a need-to-know about each phase of records management --forms, correspondence, filing systems, records disposition and vital records in order to carry out his program successfully. I know of no element in the entire records management program, however that is so active and has such possibilities for capturing results as office equipment. We have reasonably good standards I believe for guides in selecting filing equipment and filing supplies. These are outlined in [redacted]. There are, however, few guides beyond these.

STAT

✓ Our Guest speaker today is probably the best experienced person in or out of Government to discuss this subject of Office Equipment. I have known Bill Reilly for at least 7 years. He is always ready to give us ~~us~~ help on anything anytime. If you ask him a direct question about equipment--you get a direct answer regardless of circumstances. I feel we are most fortunate in having Bill here today to talk about his favorite topic - "Office Equipment-Not Gadgets" - Ladies and Gentlemen, may I present Mr. William J. Reilly, ~~Mr. Equipment~~ Analyst, NARS, GSA.
